

Ronald Allan Rivera

Elite Full-Stack Developer Specializing in Python, Django, and Scalable Solutions Location: La Union, Philippines Email: jaeron.rivera@gmail.com | Mobile: +63-927-023-8592 Portfolio: <https://allanwebdesign.com> LinkedIn: <https://linkedin.com/in/ronald-allan-rivera-a43aaa63/> GitHub: <https://github.com/RonaldAllanRivera/>

Professional Summary

I'm a Full-Stack Web Developer with 20+ years of experience delivering production-ready solutions across eCommerce, SaaS, AI, and marketing technology. I specialize in Python automation, backend systems with Laravel/PHP and Python/Django, and scalable WordPress plugin development, ensuring every project is optimized for performance, security, and maintainability.

Core Skills

Python, Django, Laravel, PHP, React.js, Next.js, WordPress, Elementor, AI, SEO, Automation, Git, Cloudflare, Google Tag Manager, Zapier, Make.com, Playwright, Selenium

Professional Experience

Lead Full Stack Developer

LogicMedia BV June 2015 – Present

- Collaborate with the CEO to drive end-to-end web development projects, creating high-performance websites that enhance user engagement and conversions.
 - Engineer full-stack applications using Python, Django, React.js, and Next.js, optimizing internal workflows and operational efficiency.
 - Oversee domain, hosting, and CDN configurations (Cloudflare) to enhance site performance, security, and uptime.
 - Develop impactful marketing content for landing pages and promotional sites, utilizing AI-driven prompt engineering to maximize conversion rates.
 - Create training documentation and video tutorials, including YouTube content, to support cross-departmental initiatives.
 - Serve as a versatile resource, consolidating multiple roles to achieve cost and time efficiencies for the company.
-

Senior Full Stack Developer

PulseIQ.com July 2007 – Present

- Direct the design and development of partner websites, crafting custom WordPress and Elementor solutions for high-impact marketing efforts.
- Build custom WordPress plugins and responsive themes from scratch, translating Photoshop designs into precise front-end templates.

- Design visual branding materials, including logos and videos, using Adobe Photoshop and Premiere Pro.
 - Leverage AI content generation tools (ChatGPT, Gemini) to produce SEO-friendly web copy, significantly accelerating content creation while ensuring quality.
 - Develop automation pipelines with Zapier and Make.com, integrating Google Sheets, OpenAI, and WordPress to enhance productivity by up to 80%.
 - Implement SEO strategies using Google Tag Manager to optimize search visibility and tracking.
 - Train and create content for online tutorials, educating partner teams on CMS and digital marketing practices.
 - Design Python-based data extraction and automation tools (Playwright, Selenium, Tkinter) for efficient marketing analytics.
-
